Seam allowances are 1/2" (1.2cm) unless otherwise stated, and are included in the pattern.

NOTES
•After cutting each panel from the pattern pieces, immediately transfer and cut all the marking lines.
•Snip the center fold (both the top and bottom) of all the panels about 1/4" (6mm).
• Fuse the decovil stabilizer to the wrong side of the bottom exterior panel (centered) - make sure to test on a piece of scrap first.
• Fuse the foam stabilizer to the wrong side of the outer back interior pocket panel (centered).
• For best results use heavy duty/upholstery thread when sewing the bag exterior.
• Walking foot will make your life much easier :)
• Watch the full instructions in the video tutorial https://youtu.be/PmYJhwiXGBQ
• Share the pictures of your finished bag on instagram #yoansewingstudio #roamingtote
