## Directions

Seam allowances are 3/8" (1cm) unless otherwise stated.

Please watch the [Full Video Tutorial](#) for thorough demonstration.

### Front

1. Make the ID window
2. Finish the raw edges of one of the long side of the front exterior/Id window panel, then install the zipper on the finished edge.  
Make sure that the start of the zipper is positioned on the left side.
3. Sew and install the ID pocket.
4. Attach the front interior panel.

### D-ring tab, lanyard strap

5. Sew the d-ring tab, install it on the left side of the front panel (same side as the start of the zipper).
6. Sew the lanyard strap, set aside.

### Back

7. Sew the back exterior pocket
8. Sew the button flap then install it on the right side of the back exterior panel.
9. Install the male button on the back exterior pocket
10. Sew the back exterior pocket panel to the right side of the back exterior panel.
11. Install the female button on the flap.

### Assembling the wallet, finishing

12. With the right sides facing, sew the front and the back panel together, leave about 3" (7.5cm) of opening at the bottom.  
*Make sure to position the back exterior pocket opening on the same side as the d-ring and the start of the zipper.*
13. Turn the wallet right side out through the opening hole.
14. Fold the raw edges of the opening towards the wrong side about 3/8" (1cm).
15. Hand sew the opening hole with slip stitch/ ladder stitch.

#### NOTES

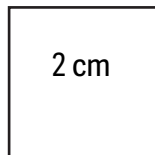

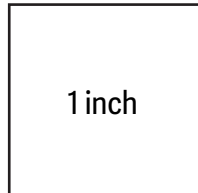

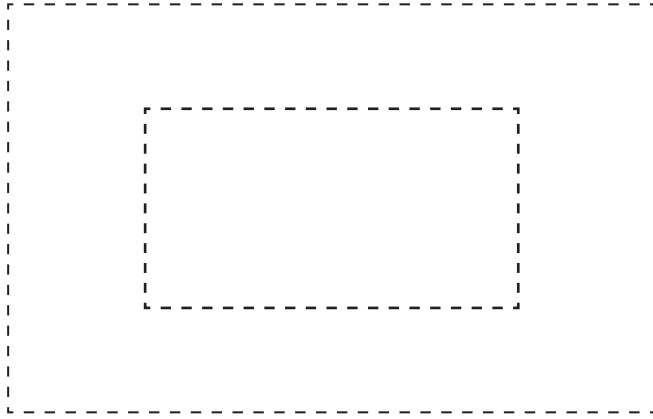

- As always for best results use a **walking presser foot** (except when installing zipper)..
- When stitching bulky layer, switch your needle to a larger one (e.g. denim needle size 100/16), and increase the stitch length.
- Always use disappearing fabric marker (air disappearing recommended) when marking on the fabric.
